PROUD MEMBER OF / FIER MEMBRE DU

Official Handicap Network – Linking Canada’s Golf Community

The member side of the www.golfcanada.ca provides a national, web-enabled handicap and communication network service for RCGA/Golf Canada member clubs. Although calculating Handicap Factors and generating scoring records is an important function of the system, one of the main objectives is to improve communication amongst Canada’s national, provincial, and local “golf communities”. Golfers, golf clubs, golf associations, and golf industry partners have the ability to communicate through messaging and event scheduling.

Benefits of using Golf Canada’s online handicap system include:

- **No software to install** - Member clubs only require a high-speed internet connection to utilize the system. Updates are seamless.
- **Score Posting** – Posting scores at the club is quick and easy. Graphics are big and bold, and touch screen capable. Post scores from home, too!
- **Real-time Official RCGA Handicap Factor calculation** – no data synchronization required.
- **Accurate Course Ratings and course information** – Over 20,000 courses are listed and continually updated in the Course Directory.
- **Improved Peer Review** – Members can easily check current Handicap Factors and Scoring Records of any other member using the system.
- **Communication** – Clubs and members can utilize an internal messaging system (no email address required) and calendar to relay information about upcoming events, tournaments, tee-times, etc.
- **Performance Tracking** – Members have the ability to track and trend a wide ranging variety of game statistics.
- **Reports** – Club administrators are able to generate numerous reports and sort their member roster in various sub-groups (i.e. Monday Night Ladies League)

For info on how to get your club connected contact:
